

DESCRIPTION: SK-350 is a clear, pink, liquid acid cleaner. It is an acid product and can be used in the removal inorganic materials. SK-350 should be diluted with water for use, always follow with a potable water rinse after use.

DO NOT MIX this product with products containing chlorine. Deadly chlorine gas will form immediately. Contamination of this product with organic material can generate heat and may cause fire. This product can react and cause damage with metals such as aluminum, brass, copper, or zinc (galvanized) to produce a flammable, potentially explosive hydrogen gas.

DANGER: Contains Nitric acid and Phosphoric acid. Causes burns to eyes and skin. Harmful if swallowed. Avoid contact with skin, eyes, or clothing. Do not take internally. Always wear protective clothing and eye protection. Do not breathe dust / fume / gas / mist / vapors / spray.

STATEMENT OF PRACTICAL TREATMENT:
In case of contact, immediately flush skin or eyes with cool water for at least 15 minutes. Remove/take off immediately all contaminated clothing. Wash contaminated clothing before reuse. If taken internally, do not induce vomiting, drink large quantities of water, followed by milk of magnesia or white of an egg beaten in water. Get immediate medical attention. If inhaled, remove victim to fresh air and keep at rest in a position comfortable for breathing. Immediately call a poison center or doctor/physician.

FOR INDUSTRIAL USE ONLY

CAUTION:

Keep out of reach of children. Avoid getting in eyes. In case of contact, flush thoroughly with water. If irritation occurs, see a doctor.
